**Globally recognised health, safety
and environmental qualifications**

One week to achieve a globally relevant fire safety qualification. Gain practical fire safety skills to protect your people and your business.

Who's it for?

The NEBOSH Certificate in Fire Safety is ideal for:

- Those responsible for fire safety in low to medium risk workplaces
- Health and Safety Managers
- Facilities Managers
- Health and safety representatives within businesses.

What will I learn?

This focused qualification helps you learn and develop fire safety skills which can be applied in workplaces anywhere in the world.

On completion of this qualification, you will have the knowledge and skills to:

- Understand fire and explosion protection and prevention principles
- Carry out an effective fire risk assessment in a low to medium risk workplace.

How will it help me?

This relevant and respected fire safety qualification will help you to:

- Gain a solid technical foundation to build on through practical application and experience
- Positively influence fire safety behaviours
- Learn fire safety techniques that are based on global best practice
- Make a difference in your workplace
- Advance your career by gaining specialist fire safety knowledge.

Advantages for employers

The NEBOSH Certificate in Fire Safety is a trusted qualification in the industry which can help you to:

- Ensure your organisation has valuable in-house fire safety expertise
- Build in-house capability to carry out a fire risk assessment of low to medium risk workplaces
- Protect your people, buildings and business from harm
- Avoid the damaging and sometimes catastrophic losses that result from fire.

Employing people who are NEBOSH qualified demonstrates a commitment to fire safety management and provides assurance to others. It can even help you achieve recognised standards and win new business.

How is it assessed?

This two-step assessment process consists of:

- **An open book examination:** you will have 24 hours to complete this assessment
- **A practical fire risk assessment:** the fire risk assessment has been developed around fire risk assessment standards such as the Home Office fire guidance and PAS79-1:2020.

"Not only did my NEBOSH General and Fire Certificates fill in so many blanks as far as my knowledge was concerned, the qualifications also gave me so much confidence and helped me, and still do help me almost every day, to demonstrate my competence. Now I'm really looking forward to taking things to the next level."

Victoria Casey,
Risk Consultant, Avivia Risk Management Solutions
